

Data Analyst Intern

Job description:

TheTopLineLab is a fast-growing data-driven consulting company in Pricing & Revenue Management, which aims to deliver advanced Pricing Transformation with a Modern approach, combining consulting methodologies, data science and software production.

We are looking for a passionate, highly analytical **Data Analyst Intern** to join our Analytical team at *TheTopLineLab* in Barcelona. In this role you will have the opportunity to have a positive impact by influencing key decisions on development of analytical solutions and be responsible for working with multi-disciplinary teams - to blend data analytics and deep business expertise to generate a holistic understanding of the users and markets. We are looking for someone to start as soon as possible.

Tasks:

The intern will be focusing on tasks related to development of analytical toolkits. The daily tasks will be on data preparation, data modelling and data output management according to business needs. The intern will be also responsible and learn BI tools from preparing dashboards for reports to implementing an interactive visual analytical tool.

Skills and requirements:

The intern must have:

- Knowledge of advanced statistics, SQL, and at least one data visualisation tool, as well as Excel, Powerpoint.
- Knowledge of R, or Python, and Google ecosystem (BigQuery, Google Analytics) is a plus.
- Strong verbal and written communication skills (in English).
- State of the art understanding on the use of data and analytics to drive business goals and insights.
- Knowledge of analytical and problem-solving skills with attention and focus on detail.

Rewards package:

- Salary and timetable (flexible) to be defined
- Fun and friendly work environment with talented people
- And more!
